

C.G.I.T. Affiliation Ceremony Held At Irma Last Week

On Wednesday, April 2nd, the W.M.S. ladies of Irma were hostesses to C.G.I.T. leaders, girls and their mothers from groups at Viking, Kinseila and Irma, besides Rev. and Mrs. Smith of Lloydminster and Rev. H. W. Inglis of Irma.

The occasion was the C.G.I.T. affiliation ceremony.

Alice Fischer, President of the Irma Sefter C.G.I.T. group was in the chair and ably conducted the service. Loraine Pond gave the devotionals.

Mrs. Simmermon, Auxiliary Vice-President for younger groups, and Mrs. C. V. Smallwood, leader of the intermediate group here, also took part in the service.

Mrs. Riley presented the World Friendship insignia to the first year girls, namely, Arlene Clumstad, Elaine MacMillan, Elaine Jack, Donna Lovig, Virgil Sampson, Judy Elliott and Lois Reed of Irma; Donna Hanson and Mildred Hefso of Viking; Pamela Lancaster and Faye Olsenberg of Kinseila.

Following the ceremony all those present, about seventy, were invited to the church basement which was beautifully decorated with Japanese, lanterns, plum blossoms, etc., in.

DONATIONS

United Church Memorial Fund:
In memory of Mrs. Mary Halvorsen from; Mr. and Mrs. E. W. Prosser; Mrs. Helena McKay, Don and Jack; Mr. and Mrs. R. C. McFarland; Mrs. Mary E. Burrell; Mr. and Mrs. Ernie Rose; Mr. and Mrs. James Pond and family; Mrs. L. Hager and William, Devon, Alta.; Mr. and Mrs. H. Riley.

W.M.S.:
In memory of Mrs. Mary Halvorsen from; Mrs. Hutchinson, Mrs. C. V. Larson, Mr. and Mrs. R. L. Simmermon, Mr. and Mrs. H. L. Black.

Weekly Inspirational Corner

(Sponsored by an Irma Times reader)

Moreover, brethren, I declare unto you the gospel which I preached unto you, which also ye have received, and wherein ye stand. By which also ye are saved, if ye keep in memory what I preached unto you, unless ye have believed in vain.

For I delivered unto you first of all that which I also received, how that Christ died for our sins according to the scriptures; and that He was buried, and that He rose again the third day according to the scriptures. —1 Corinthians 15:1-4.

Regular Meeting Village Council

Minutes of the regular monthly meeting of the Council of the Village of Irma held on the 7th day of April, 1958, in the office of the Secretary-Treasurer at 8 p.m.

Councillors present: G. P. Jones, V. S. Sampson, G. Hurst, Secretary-Treasurer, A. C. Charter.

Mayor Jones presiding. Minutes of the last regular meeting of the Council and also the Minutes of Special Meeting of the Council of the 7th day of March were adopted as written. Motion—G. Hurst.

Letter received, covering report of Stanley Grimbale and Robin on outfall sewer, was before the Council; and also Progress certificate covering additional bedding sand and additional 10 in. sewer laid on end of outfall sewer. Omitted from previous progress payment certificate.

Copy of letter from the Engineers to Canadian Surety Co. indicated that recent inspection of the "Ground Storage Reservoir" was satisfactory and that the Company was requested to issue the agreed four year bond to the Village covering the Reservoir.

V. S. Sampson moved that a cheque in the amount of \$845.75 be forwarded to Ackerman Construction Ltd. to cover additional material as shown on Progress Payment certificate No. 112 of March 29th as certified by the Secretary, April 1st, 1958. Cd.

Circular letter from Department of Health regarding Payment Day Capital Charges to be paid to Hospitals by Municipalities as set forth under Section 12 of the Hospital Benefits Act effective April 1st, 1958, was received and filed.

Circular letter from Department of Municipal Affairs advising municipalities of new regulations and taxation requirements for the year 1958 as they pertain to the present scheme of hospitalization, and the new plan effective April 1st, 1958, filed.

Letters received from Alberta Welding and Saskatoon Welding re certain welding required on Steam Boiler. Tabled.

Plan of proposed road of Plan 4728B and Block C 1560W was received from Director of Town and Rural Planning.

Plan returned to Director indicating that while Plan 4728B was satisfactory, Block C 1560W would require alteration to conform with certain lots sold and titles issued on description.

Letter from District Gas Inspector, Department of Industries and Labor, Filed.

Correspondence read re Lots 10, 11, 12 and Lots 13-21 Bld. C 1560W and the Imperial Lumber Co. Ltd. Filed.

Requisition received and accepted Walworth School Division No. 23 in the amount of \$13,258.56 for the year 1958. Requisition also received Irma M.H.D. No. 55 in the amount of \$1765.00 and accepted.

Moved by Mr. Sampson that the account Mr. J. Pare in the amount of \$40.00 for work in connection with replacement of Pumps, be sent back to Ackerman Construction Ltd. Cd.

Secretary instructed to place notice in Irma Times re 1958 Dog Licenses to conform with Bylaw No. 21, Village of Irma.

Moved by Mr. Hurst that Council hold Court of Revision May 5th at 8 p.m. in the Village Office. Cd.

Financial Statement for the month of March:

Net Balance at the beginning of the month \$9112.41.
Receipts for March \$945.49.
Disbursements \$4457.50.
Net Balance March 31st \$5600.40.

Savings Account \$10265.02.
Mr. Sampson moved that Financial Statement be accepted. Cd.

Mr. Hurst moved that accounts payable in the amount of \$1561.00 be passed for payment. Cd.
Motion to adjourn was made by Mayor Jones.

A shallow talker seldom makes a deep impression.

Youth Killed, Two Injured in Train Derailment Just East of Irma Early Easter Sunday

One of the worst freight train wrecks ever to occur on Canadian railways happened about 2:30 a.m. on Easter Sunday morning just a mile east of the Village of Irma. 38 cars, heavily loaded with lumber and timbers, piled up in an incredible mass of bent and broken steel and splintered wood.

The train was an 80-car fast freight and something caused the 10th car behind the diesel to jump the track. The momentum

of the remaining cars caused the pile up. Some of them were flung into the air flattening the telephone and telegraph lines for about 800 feet and cutting off all communications east of town. Some cars were tossed so far they landed on the shoulder of Highway 4.

None of the crew of the freight suffered injury but when they came to survey the wreckage, voices were heard crying out from beneath the piled up

lumber and other debris. Three Edmonton youths, Melvin Burry, Borden Wyshynski and Donald Scott were found to have been hitch-hiking from the City to Estevan, Sask. They had been riding on a flat car loaded with lumber and were trapped in the wreckage.

A call was sent to Irma for help and every able bodied man who knew what had happened was quickly on the scene.

Some began removing lumber, etc., while others went to Wainwright to get a doctor and to Edmonton to get a power chain saw. Other Irma townfolks provided coffee for the workers.

After 3 or 4 hours of labour, Scott and Wyshynski were released. They were badly injured and taken to Wainwright hospital where we believe they are making some progress toward recovery.

Burry had been killed in the accident and his body was not brought out until 8:30 on Monday morning. He was found underneath the wreckage.

This is the main line for the C.N.R. and all traffic was brought to a standstill. The rails were ripped up for about 600 feet and much wreckage was piled on them. Two auxiliary trains and two cranes with cranes and other machinery were rushed to Irma and the job of clearing and mending the track was done as quickly as possible.

Irma folk consider it very fortunate that the train wrecked where it did and not closer to the station as more lives would have been endangered as well as property.

Glen-Coa Gleanings

Mr. L. Satre, accompanied by Mr. and Mrs. Carl Gulbraa and children and Mr. Hans Christensen, spent Easter Sunday with Mr. and Mrs. Willard Shaw in Edmonton.

Mr. and Mrs. Alven Johnson and boys of Blackfoot, and Mrs. A. Johnson attended Easter service at Sharon, visiting at the O. Likness home afterwards.

Home for the Easter weekend were Miss Bessie Pedel from Kootenay, and Mr. Oren Savin from Drayton Valley. Miss Edythe Gulbraa of C.I.C. had the whole Easter week at her home, as did Vernon Logden at the home of his cousin, Mrs. O. Rasmussen.

Miss K. Hagerup is a guest of Mrs. L. Nilsson. Miss Hagerup of Norway has been in Canada since December last, visiting at the west coast and Drummheller. Miss Hagerup paid a visit here a few years ago, so it is most pleasant to renew acquaintances with her and to hear of her interesting trips. She has made no plans as to the length of her stay in Canada.

Mr. and Mrs. Don MacKay and family will be in Irma during the week of April 14th to 20th. They are staying at Withall's and visiting brothers and sisters in the vicinity.

Sharon Luther League had an interesting social evening on Monday which took all present on an enchanting trip to Mexico. The magicians were Mr. and Mrs. Oswald Olson of Sedgewick who were privileged to win a trip to Mexico city last January. A small plane was even sent to Sedgewick to pick them up and take them to Edmonton. Their flight took them by way of Toronto. They took so many interesting pictures showing beautiful scenes in Mexico City and surroundings. They encountered the unusual there, too, in a number of rainy days. They returned by way of the west coast and Vancouver. The pleasant evening was brought to a close around the lunch table.

Spring has come in a hurry these last days, making the snow disappear as if by magic, leaving the roads and stirring hearts anew to envision flower beds, etc.

Miss Norma Likness writes from Redwood City, California, of the terrific rains they have been having, something most unusual at this time of year. Last week there was such a storm that streets in the city were all flooded. Many homes in nearby towns had to be evacuated. Redwood City is said in the geography book to have the most perfect climate in the world. But even the geography book could be wrong. We in Sunny Alberta are asking for no sympathy this year.

Machine.

All machinery should be gone over, adjusted and greased now and any necessary repairs made so that it will be ready for use when you want to start work. Fuel supplies should be obtained while trucks can still travel on the roads. Getting these jobs done now will take some of the pressure off when land work starts.

wood City is said in the geography book to have the most perfect climate in the world. But even the geography book could be wrong. We in Sunny Alberta are asking for no sympathy this year.

SECOND LOOK ESSENTIAL ON FARM, CITY GIRL FINDS

Tom, the village philosopher, says the best education doesn't come from books and blackboards and such, but from taking a second look at things. That's the one that counts, he figures, and a second glance can often save you from making a fool of yourself.

To illustrate his point, Tom tells the story of his niece, Dolly, who visited from the city a couple of weeks ago.

"I took her around to see my brother Ed—the one who runs a farm. Oh, what a strange looking cow," says Dolly. "Why hasn't she any horns?" So Ed says, "Well, some cows are born without horns and never had any, and others shed theirs, and some are de-horned, and some

breeds ain't supposed to have any horns at all. There's all kinds of reasons why some cows ain't got horns, but the reason this one ain't is because she ain't a cow. She's a horse!"

Which leads us to wonder if a second look isn't called for in personal planning sometimes. If you find your money slips through your fingers, consider regular saving with a Bank of Montreal savings account. Deposit so much of each pay-check into a B of M savings account. In that way you make sure of getting your share of your own income.

Paul Munch, of the Irma branch of the B of M will be happy to tell you how easy it is—and how profitable.

—Advt.

WITH THE District Agriculturist

By J. S. Duncan

Our Cattle, Where to Now

As the quality of the cattle in the district improves it becomes harder and harder for the small cattlemen to afford the type of sire which should be used to maintain or improve the quality of the cattle. One possibility is the use of Artificial Insemination in these small herds. So far Artificial Insemination has been employed mainly on dairy cattle but it may have a place for the beef man who doesn't have too many cows. One requirement for a unit would be enough size to justify the employment of a technician. Distance wouldn't be too big a handicap. We would like to hear from anyone who might be interested and if there is enough interest, a meeting could be held to discuss the matter further.

Seed Treatment

The cost of proper seed treatment may be large. All grain being seeded should be treated for disease control. Of the many products on the market for seed treatment the Mercury compounds are the best. These are not pleasant to handle but they are very effective. Don't use formaldehyde as it can have very serious effects on the seed. Be careful about some of the products which are only effective for one disease. There are some products on the market which are only effective against blight of wheat. These do not prevent seedling blight or root rot and have no value for treating oats or barley.

Machine

All machinery should be gone over, adjusted and greased now and any necessary repairs made so that it will be ready for use when you want to start work. Fuel supplies should be obtained while trucks can still travel on the roads. Getting these jobs done now will take some of the pressure off when land work starts.

wood City is said in the geography book to have the most perfect climate in the world. But even the geography book could be wrong. We in Sunny Alberta are asking for no sympathy this year.

Demaine has building boom in 1957

The year of 1957 was a year of improvements in buildings in Demaine, with close to one hundred and fifty thousand dollars of improvements and additions being made.

To start the ball rolling, the Sask. Wheat Pool Elevator built a 30,000 bushel annex early in the year, closely following it the United Church of Demaine received a complete interior renovation to make it a very comfortable small church to serve the needs in our community; the work being done by volunteer workers.

About this time the district was beginning to become concerned over its very inadequate school facilities; the wood structure which was being used had more than served its time; being built in 1910; so after some persuasion the Outlook Unit Board made arrangements to move their schedule ahead one year and build a four room addition to the former brick structure to give the district a six room school in one unit complete with hot water heat throughout; a really beautiful building.

Next on the construction list was the building of a fire hall to house the fire truck, which is a three ton truck with thirteen hundred gallon tank and equipment mounted on it. This building is heated and the tank is to be kept full of water to meet any emergency. This project was realized through a special levy on the hamlet and the R.M. of Victory.

The community hall was in bad need of repair, it being another building that was raised by community effort some years ago. It was again by good community spirit it a 20-foot addition, complete with full basement to accommodate an automatic oil furnace was built; the floor also being replaced with a lovely maple floor to the joy of the square dance club which is one of the largest clubs in the rural area. The hall which is always the center of community activities, can now accommodate very comfortably, any social activity along with our weekly Saturday show which has been continuous for nine years; it also being a community project.

Then another one of our home-owners, Mr. Bob Nicholson, moved his house into town, closely followed by the Federal Grain Company moving the former Dave Anderson into town, which they reconditioned for one of their buyers. At the same time the Federal Grain Company was also building a 30,000 bushel permanent annex. This, of course, is all contrary to our royal commission findings, which reported the small towns would get smaller and disappear, but may be our community spirit runs high and services excel. OUR HOME TOWN will continue its growth. — The Weekly Broadcaster, Lucky Lake, Sask., Feb. 14, 1958.

MANUFACTURING

Manufacturers' shipments in January were over 3 percent lower in total value at \$1,669,864,000 than a year earlier. Largest drop was in the motor vehicle and related industries group; other declines were in export goods and intermediate goods and supplies groups. Consumer goods and heavy transportation groups were higher. Instead of the usual small increase, value of inventory owned by manufacturers at the end of January was slightly below the 1957 year-end value.

There are about 20,000 species of birds in the world.

Ninety Sask. children killed

7,000 Disabled

"Judging by the statistics, school premises are more dangerous than the streets," Christian Smith, director of health education for the Saskatchewan public health department, said, "if we are to have safety patrols, they should be in the buildings and in the schoolyards," he added.

Preliminary figures gathered by the department show that two children of school age were struck and fatally injured by motor vehicles on public thoroughfares last year. In addition, 43 children of school age went to hospitals with injuries received in traffic mishaps, and of these 15 were hurt while riding bicycles.

"A total of 371 pupils were hospitalized last year after accidents at school premises," Mr. Smith said.

In comment on the withdrawal of some schoolboy safety patrols in the province because of legal liability, he said, "The school authorities might consider engaging adults for the job, as they do in Toronto."

"The prevention of death or injury to even one child is worth our utmost effort, but to be practical, if schoolboy traffic patrols are justified, a much better case can be made for home, farm, and school playground safety patrols, because that is where most of our children are being killed or injured."

"Last year 90 Saskatchewan children were killed accidentally and close to 7,000 suffered disabling injuries. Let's focus on that tragic problem and concentrate on its worst aspects," Mr. Smith concluded.

REGINA'S BOAT-MAKING INDUSTRY

According to Bob Morrow, Dewdney and Albert in Regina, "Making your own boat is as simple as ABC." Rather than laying his men off during the winter months, he has been experimenting with pre-fabricated boats of various types and designs. He now claims to have the "World's Best Boating Boat". Having produced several different models, boating enthusiasts may now order a completed boat or a pre-assembled boat kit. He explained that the handyman can merely join the hull and the hull is complete! No need to spend many hours in precisely fitting many parts together. This has already been done by experienced and qualified marine craftsmen. His pre-assembled Boat Kits are designed specifically for individuals who have had no experience in building boats.

Half-Size Duo PRINTED PATTERN

4712 14½-24½ by Anne Adams

ROYAL VISIT—His Royal Highness Prince Philip is greeted by Air Vice Marshal H. B. Godwin as he alights from his aircraft to visit the RCAP's No. 4 Fighter Wing base at Baden-Söllingen, Germany. Planning to spend a week in the Baden area, the Prince began by touring the base and getting a briefing on the role of the RCAP's NATO Air Division in Europe. He then met members of the "Zulu" crew who stand round-the-clock watch for unidentified aircraft, maintaining a constant "alert" status. Canadian school children, let out for the day, cheered as he left the station.

—National Defence.

4-H participate in community activities

"One of the objectives of the 4-H movement is participation in community activities, and 4-H members in the area around Assiniboia deserve special commendation for their part in the completion of Assiniboia's Pioneer Lodge for senior citizens," H. R. Clark, 4-H supervisor in the extension department at the University of Saskatchewan in Saskatoon, said. Clubs from Vantage, Mazenod, Twin Lakes, Mankota, Willow Bunch, Wood Mountain, Coronach, LaFleche, Rockigen, Ferland, Limerick, Harwood, Meleval, Valor and Willow took part in a joint undertaking to furnish a suite in the Pioneer Lodge. They were the first group to furnish a suite in the project.

"This undertaking by these clubs speaks well for the work they are doing," Mr. Clark said. "It also is a splendid indication of the kind of leadership they are receiving. Initiative such as this should always be encouraged—the rewards are many and the feeling of a job well done is so satisfying. Accomplishments such as this project can be repeated many, many times—it is a project which sets up high ideals for other 4-H groups."

SPRING SIGNS

The most welcome calls of the year, and the ones we enjoy commenting on, are the calls that herald the end of winter and the arrival of spring. Last week we received a call from our Relesey district correspondent that a resident had seen a groundhog.

—Orangeville (Ont.) Banner.

NATIONAL WILD LIFE WEEK

NOTE: The following information was sent to all school grades 1 to IX by the Department of Education in the province of Alberta.

This year National Wild Life Week is to be observed during the week of April 6 to 12.

By a special act of Parliament these seven days have been set aside to commemorate and perpetuate the splendid work of Jack Miner, Canada's greatest and most-loved naturalist. Jack Miner has become a world-renowned symbol of kindness to birds and animals. In his children they find the greatest inspiration for their lessons on conservation.

This week may be observed in Alberta's schools by a study of Jack Miner's projects including drawings, posters, bird-house construction, etc., appropriate to the various grade levels. In the schools in all grades for the last few years the kindergarten classes have drawn pictures of bird and animal life. The intermediate classes have written paragraphs or essays on Canada's wild life resources while the senior classes have given oral compositions on the subject.

Early in this century Jack Miner realized the necessity of preserving our natural resources. He formed one of the first Game Protective Associations. He originated the idea of protecting, feeding and conserving wild bird life. His Bird Sanctuary near Kingsville, Ontario, near the shore of Lake Erie and south of Windsor, became famous and served as a model and inspiration for several other havens for migratory birds. In the barren fields of his farm

Jack Miner and his workers dug the hollows for the ponds for wild ducks and geese. Countless trees were planted as a windbreak and for the use of insect-eating song birds.

On his visits to Western Canada Jack Miner urged the planting of shelter belts of trees and the conservation of our water resources. He also introduced the idea of bird sanctuaries in Canada to provide spots where migratory birds en route from south to north in spring and from north to south in fall can rest in peace, protected from the hunters. These sanctuaries have spread in Canada. There are two at Lethbridge, one on the river front and one at Henderson Lake. Park Lake in the Lethbridge Northern Irrigation District is another.

In 1909 Jack Miner began his bird-tagging activities when he placed an aluminum band on a black mallard duck. The duck was killed in North Carolina. In 1910 he decided to concentrate in banding Canada wild geese. He trapped and banded the geese, which he trusted him, despite such familiarity. To this day, wild geese bearing the metal leg bands, each with a chapter and verse of the Bible indicated on it to identify the date and place of banding, are being taken by hunters.

In southern Michigan last season, a wild Canada Goose was found dead from gunshot, and it carried two leg bands. The first read "32 F, Mark 5: 36" and the other, "A8, 44, Mark 5: 36." Many Miner, the son of the great naturalist, was communicated with by the finders of the goose, and Manly reported that the bird was first banded at Kingsville in 1922 and again, at Kingsville, in April, 1944. "This means that the grand old gander had lived at least 23 years, and had travelled up and down the continent, spring and fall, possibly from the Arctic Circle down to the Gulf of Mexico, 23 times before being shot, and stopped off at Kingsville, from time to time, in passing."

During his lifetime Jack Miner banded hundreds of geese. This project helped both Canadian and United States governments in establishing strategic bird sanctuaries and in regulating shooting privileges.

Jack Miner died in 1944, honored as a protector and internationally respected authority on wild life, especially birds. His work is being continued by the Jack Miner Migratory Bird Foundation. Its purposes are to perpetuate Jack Miner's bird sanctuary for the care and feeding of the birds and to co-operate in carrying on educational conservation programs. By special act of Parliament (1947) this week, April 6 to 12, has been set aside as National Wild Life Week.

In 1958 tax payments of all governments in Canada will be about \$500 per capita.

Extensive programs for cruise

The popular Cunard luxury liner Britannia will sail from New York Jan. 23, 1959, on a 66-day All-Mediterranean Cruise, the Cunard Line has announced. The 28,000-ton ship will call at 22 of the most colorful ports in 13 countries throughout the length and breadth of the Mediterranean on this holiday voyage, the Britannia's ninth post-war cruise.

Cruise fares, which begin at \$1,275, include return transatlantic passage in first class in any one of 11 Cunard liners including the world's largest liners, the Queen Elizabeth and Queen Mary.

Complete itinerary will include calls at Madeira, Casablanca, Tangier, Malta, Alexandria, Haifa, Rhodes, Istanbul (with cruising up the Bosphorus to Keikili Koyu), the Dardanelles, Athens, Dubrovnik, Venice, Messina, Naples, Villefranche, Barcelona, Palma, Algiers, Malaga, Gibraltar, Lisbon, Cherbourg and Southampton. Passenger meals stop over for extended tours of Britain and the Continent, returning to New York in any Cunard sailing.

An extensive program of shore excursions is being arranged by the American Express Company with ample time provided in each port for visits to interesting places.

The Britannia, one of the world's largest motor vessels, offers passengers such cruise attractions as broad outdoor sports decks, glass-enclosed promenade, swimming pool, spacious staterooms and a wide variety of public rooms for the shipboard programs planned by an experienced cruise staff.

INTERNATIONAL TRADE

Commodity imports in February were down about 15 percent in value from February last year, leading a two-month decline of \$122,100,000 to an estimated \$768,300,000; while exports were 6 percent lower in the month to make a cumulative decline of nearly \$35,000,000 to \$715,400,000. Two-month purchases from the United States were of some what more than the total imports decline, while exports decreased only slightly. Final import figures for 1957 show that the year's decline of 14 percent in value resulted from a drop of 4 percent in volume average prices being some 3 percent higher.

Pinafore of Huck

7126 by Alice Brooks

Right for now and for summer days ahead—a pretty pinafore made of huck, in white or color! Easy huck weaving.

The Alberta Legislature In Action

by Ken Mason

EDMONTON — The Alberta government has been told in several thousand words that it will have to play its full part in the great development which is about to occur in northern Canada.

That, in effect, is what was said by the province's Royal Commission on Northern Development in a 115-page report tabled in the Legislature last week by Industries and Labor Minister Ray Reierston.

The commission takes the stand that the major need in northern Alberta and all northern Canada is improved transportation, and accordingly it urges an immediate start on railway from McMurray north to Pine Point, N.W.T., on Great Slave Lake.

It also urges the province to make an early start on a major road improvement program in the north, and calls for the building of an east-west highway through the top half of Alberta, linking the proposed new railway on the east with the Mackenzie Highway to the west.

The commission's comprehensive report, the result of nearly a year of public hearings and intensive studies, covers every aspect of potential development in Alberta's sparsely-settled northland.

Depending upon what the government does with it, it could be the biggest break ever for the north. Mr. Reierston told the press nothing will be done during the current session to implement any of the recommendations. He said the report will be studied during the coming year.

The commission says Alberta should be willing to subsidize the 400-mile, \$60,000,000 northern railway to the extent of granting free right-of-way and paying part of the \$7,000,000 cost of combined highway-railway bridges over the Peace and Athabasca Rivers.

Such a railway, the commission says, is essential to Canada from a defence standpoint, and vital to Alberta from an economic standpoint.

The rail line would provide access to rich deposits of lead, zinc, copper and nickel along the shore of Great Slave Lake. It can't be mined now because there is no means of transporting it to market.

The commission seems to take it for granted that the railway will be built, although the final decision is with the federal government, the CBR and the CPR. Also, the commission seems to take it for granted that the line will be built north from McMurray instead of north from Grimshaw.

It says the volume of freight to be expected from the growing uranium mining area in north-western Saskatchewan will tip the economic scales in favor of the eastern route.

It may just be that the commission obtained a fairly good indication from federal authorities that the eastern route will be favored. Commission chairman James G. MacGregor, went to eastern Canada to confer with railway and federal government officials in the early stages of the investigation.

If the eastern route is finally built, it will be a disappointment to residents of northwestern Alberta. However, the commission makes up for it by recommending rebuilding of the Mackenzie Highway to modern standards and hard surfacing from Manning to Grimshaw.

The proposed east-west road would run from the Mackenzie Highway east to join up with a road being built in Wood Buffalo National Park. Eventually, the report says, this road could be extended east to Uranium City.

Thus, the report says, no point in northern Alberta would be more than 100 miles from a railway or a highway.

A railway to the Northwest Territories has long been the dream of northern residents. The voluminous report says "Transportation is the key that will unlock the resources of northern Alberta."

Among other major projects suggested is a highway from Lac La Biche to McMurray.

The commission's report covers the area north of the 55th parallel, about 100 miles north of Edmonton. The area is about 350 miles wide and runs 350 miles to the N.W.T. boundary — in all, about 129,000 square miles.

The area's resources include:

about 14,500,000 acres of good undeveloped farmland; 27 billion cubic feet of sawing timber and 333 million feet of pulpwood; "tremendous possibilities" for base and precious metals; 300 billion barrels of oil in the Athabasca oil sands; nine trillion cubic feet of natural gas, and 2,715,000 horse-power of undeveloped hydropower.

Among other recommendations, the commission urges establishment of a permanent advisory board to carry on a continuous study of northern requirements, and a north-western research institute to co-ordinate northern studies.

The commission was headed by James G. MacGregor, chairman of the Alberta Power Commission and author of several historical books on western Canada.

The Legislature gave up all hope of being able to prorogue last week as a result of bills slowed to a snail's pace.

The guessing is now that the session will end sometime this week, although at the time of writing there was still a heavy volume of work to be finished.

Members packed up Thursday afternoon to go home for the Easter weekend, and were to be back on the job Wednesday afternoon.

However, 28 members of the private bills committee were back at work Tuesday to continue study of a bill which would permit dental technicians, or "denturists," to fit patients with dentures. The Alberta Dental Association is violently opposed.

The House continued to plod through the liquor laws last week but made only slight progress.

Brief discussion developed over an Opposition member's suggestion that the province permit liquor advertising. The argument was that plenty of advertising comes in now through national publications.

Opposition Leader Harper Prowse said "let's grow up" and let honest advertising replace such hidden advertising as brewer's promoting ginger ale.

The government was prepared to relax the advertising restrictions, but it was announced that studies will be held in the coming year regarding the hidden type of advertising.

Members forgot their political differences last Tuesday, and gave despatching congratulations to the Progressive Conservative Party on its overwhelming election victory. Premier Manning, who saw the Social Credit party obliterated in the March 31 vote, said it was not a day for post-mortems but for congratulations.

A NEW FARM SERVICE

The Canadian Veterinary Medical Association is issuing a news release service that will appear from time to time in this paper. Criticism and suggestions along these lines are always welcome and any farmer should address their letters to the Canadian Veterinary Medical Association, P.O. Box 416, Ottawa 2, Ontario.

IMPORTANCE OF TWO PHASES OF MILKING OPERATION AS FACTORS IN MASTITIS TOLD

The Canadian Veterinary Medical Association says that experiments with machine milking point to two practices which can play a part in causing mastitis. Both involve management of the milking operation. One of these practices is the forcible removal of the teat cups while suction is still being applied. The other is leaving the milking machine in operation on the cow for too long a time. Veterinary authorities say that if the teat cups are removed while suction is still active—or not entirely suppressed—there is a tendency for the lining of the teat to be drawn outward. If that is repeated often enough it may cause irritation. Tests have shown the average time of milking machine should be left active averages slightly more than three-and-one-half minutes — this varies with the rate at which the cow lets down her milk.

Friday, June 13, is Farmers' Day and has been proclaimed a school holiday by an order-in-council of the provincial government.

Jarrow News

Messrs Bill Belton Sr. Mack, Pete Belton and Clifford Firkus attended the wrestling match in Edmonton last Tuesday.

Mr. H. McGuire spent a few days in Edmonton last week.

The sympathy of the community is extended to Mr. and Mrs. E. Young on the passing of Mr. Young's father of Meadowlake, Sask.

Mr. and Mrs. Bud Beer of Calgary; Mr. and Mrs. Paul Lundberg of Wainwright, spent Easter Sunday with Mr. and Mrs. H. Beer and Jim.

Ronnie Firkus is home for a 10-day Easter holiday from Oklahoma where he is attending University. We understand his folks are also due to arrive this week from Wisconsin where they have spent the winter.

Those visiting relatives in Edmonton over the Easter weekend included Mr. and Mrs. Gordon Meakins, Terry and Ellen, Mr. and Mrs. Bill Meakins, Shirley Anne and Douglas, Mr. and Mrs. Ed Bruhaug.

Mr. and Mrs. G. Theroux are now living in their home in Irma. The best wishes of the community go with them.

At the Easter service held in the Jarow Church on Sunday a lovely Pulpit Bible was dedicated to the church in memory of Mr. Jamieson, Mrs. Theroux and Rev. Inglis made the dedication. Mrs. Beers and Gloria Mathew favored with a duet.

Mrs. Mary Lind of Edmonton was home for the Easter weekend.

Mr. and Mrs. Joe Orzechad and boys visited the home folks over the weekend.

Mr. and Mrs. Robert Bovenkamp and family were recent city visitors.

New Arrivals at Viking Hospital

March 2, Mr. and Mrs. Carl Naslund, Viking, a boy.

March 7, Mr. and Mrs. Clifford Hammer, Viking, a boy.

March 7, Mr. and Mrs. Stanley Jakubec, Viking, a boy.

March 11, Mr. and Mrs. Bob McIntyre, Viking, a boy.

March 18, Mr. and Mrs. Leo Klein, Bruce, a girl.

March 18, Mr. and Mrs. Bert Hill, Viking, a boy.

March 23, Mr. and Mrs. Stanley Zemaneck, Viking, a boy.

EASTERLY ECHOES

Belated congratulations to Charlie Younker and Ronnie Dempsey being winners at the ham bingo.

Mrs. R. Dempsey was a recent Edmonton visitor.

Mr. and Mrs. Pat Setters and baby of Didsbury visited at the home of the latter's auntie, Mrs. W. Veer at the weekend.

Mary Dootson and Maureen Dempsey were Easter visitors at their homes.

Mrs. Bill Walker and sons are visiting with relatives at Mannville.

Mr. and Mrs. W. Veer and family were visitors at the P. Funk home Sunday.

Mr. and Mrs. J. Burton and family visited in Wainwright on Sunday.

Mr. and Mrs. G. Elliott took part in the Legion bospital Saturday in Wainwright.

People from far and near came to see the train wreck Sunday. (This worst wreck, we are told, this side of the Rockies).

Mrs. E. C. Elliott and Arthur of Edmonton spent the weekend with her sons, Gordon and Hugh.

Mr. and Mrs. Marshall (the former Jean Steele) renewed acquaintances at Irma over the weekend.

Line 2 is a casualty of the train wreck this week.

Although Canada's total agricultural production has been steadily increasing, over the past 10 years the number of farm workers has declined by an average of 30,000 persons annually.

Luther League Meet In Viking April 18-20

(From The Viking News)

The Luther League Convention of the Edmonton circuit will be held at Golden Valley Lutheran Church at Viking, April 18th to 20th. Gordon Hagen is the circuit president, and the local Luther League will be host to the convention.

The convention opens Friday, April 18th with a Social Hour and Vesper service, the speaker that evening will be Pastor Carl Johnson, teacher at the Canadian Lutheran Bible Institute. Saturday and Sunday will be extremely full days. Guest speaker at the P.T.M. banquet Saturday evening will be Peter Tan from China; he will also speak at the worship service on Sunday morning. Sunday after-

C.L.C. CHOIR PRESENT CONCERT

(From The Viking News)

The Camrose Lutheran College Choir will present a Sacred Concert in the Golden Valley Lutheran Church on Monday evening, April 21st at 8 p.m.

Everybody cordially invited.

Early to bed, early to rise — till you make enough to do otherwise.

non, Isao Yamamoto and Samuel Shen will tell us of the mission fields in their home lands, Japan and China, respectively. Samuel Shen will also favor us with piano solos.

We look for many out-of-town visitors during this convention. It is going to be a great event in the life of our Luther League and congregation. — J. Precht

BY
W. O. MALHER, Director,
Research Department,
WHEAT GRAIN COMPANY, LIMITED
THE PROBABLE CROP
PATTERN IN 1959

Both the U.S.A. and Canadian surveys of "Farmers' Intentions to Plant" may give a fairly good indication of what will actually be sown this year even though weather or price trends, or both, may change some farmers' minds between the 1st of March and seeding time.

Almost certainly, however, because of oversupply, there is going to be a significant reduction this year in the North American Durum wheat acreage. In the U.S.A. probable reduction is estimated at 50% and in Canada at 34%, with Manitoba showing the only intended increase in acreage. Total spring wheat area (including Durum) is likely to be little changed in either the U.S.A. or Canada. Showing greatest change, U.S.A. total wheat plantings, including 43.9 million acres of winter wheat, now appear likely to reach 56.5 million acres, or 6.6 million more than was planted last season. In Canada, the total wheat acreage, including Durum may be just about the 20 million acre level.

Of special interest are expected reductions in the U.S. and Canadian 11A seed acreages shown at 17% and about 10% less, respectively. Given a favorable season, however, Canada might still produce a crop of 25 millions or more on the 3 million acres expected. The U.S.A., on the other hand, on an acreage of 4.6 million would normally stand to harvest little more than enough for her own requirements.

Closely followed this season will be another special crop, rapeseed, which, according to present estimates, may show a 219,000 acre increase in Saskatchewan with an actual decrease in Alberta and an overall net gain of 200,000 acres. Sizeable as this expansion appears, it is not as large as many observers thought it would be. That perhaps will turn out to be a good thing since some apprehension was being felt that producers might become too enthusiastic about this crop in view of the more or less limited markets yet available.

Kinsella News

Mr. Ed Miller who has resided in Kinsella for some years, left last week. After a holiday in the States he will reside at Hay Lakes, Alberta.

The Kinsella CGIT Girls went to Irma last Wednesday evening where they were the guests of the members of the Irma CGIT.

Mrs. A. Loades and Greg are spending a few days in the city.

Visitors who spent the Easter holidays at their homes here included, Miss Betty Armitage of Edmonton, Herb Armitage,

George Loades and Marvin Horinek of Camrose, Leland Garvie, Larry Harris, Barbara and Bernice Long and George Carpenter of Edmonton.

At the Good Friday service held in the Kinsella church, the following were received into Church membership: Joan McCleod, Sharon Garvie, Donald and John Armitage, Robert Cormack, Elwood Garvie, Ronald Horinek, Malcolm and Gregory Loades. The Rev. C. Swallow officiated at this ceremony.

Mr. and Mrs. Ray Anderson and family were Sunday guests at the home of Mr. and Mrs. D. Greenwood.

Mr. and Mrs. C. Smogard of Edmonton were weekend visitors at the home of Mr. and Mrs. E. Simmons.

The Easter Sunday morning church service conducted by the Rev. Swallow was well attended. Miss Carol Garvie was the soloist. Bouquets of beautiful spring flowers enhanced the front of the church.

Mr. and Mrs. Leslie Clay and son and daughter of Calgary spent the holiday weekend at the home of Mr. and Mrs. Wm. Revell.

Congratulations to Mr. and Mrs. Lewis Peterson on the birth of a son.

Mr. and Mrs. R. Baron and Miss R. Berezka of Edmonton were visitors at the home of Mrs. S. Berezka.

Gordon Deitch of Camrose Lutheran College is spending the Easter holidays at the home of Marvin Horinek.

Mrs. Bruce Greenwood is visiting at the home of Mr. and Mrs. Ray Anderson of Edmonton.

Mr. and Mrs. J. Beschell of Edmonton were guests at the home of Mr. and Mrs. Joe Beschell.

Echo - Rodino

Miss Marilyn Murphy of Manitoba spent the weekend with Connie Vandervale.

Mr. Angus Faulkner of Uleas, has been visiting in the district this week.

The children had a fine Easter Party at Albert school Thursday afternoon. The pre-schoolers attended the party and had a marvellous day.

The rain that fell during the night of April 2 and 3, brought a sudden avalanche of spring floods throughout the district.

Miss Shirley Nash and a friend are visiting the home of Mr. and Mrs. F. Nash.

Mr. Henry Beckett is spending a short holiday at home while the roads are banned to drilling equipment.

Ken Anderson of Edmonton is spending the Easter school holiday at the home of Mr. and Mrs. W. D. Johnston.

The W.A. conducted an Easter programme entitled, "What Easter Means" at their monthly meeting on Thursday April 3.

The following took part: Mrs. G. Paterson, Mrs. J. F. Murray, Mrs. P. Moller, Mrs. Wm. Gillespie, Mrs. J. Zelinski and Mrs. W. McKie. The solos were Mrs. J. McKie and Miss C. Garvie.

The members of the W.A. wish to thank all who helped in any way to make their annual Easter tea and sale of work a success.

Please plan to attend the congregational Pot Luck Dinner to be held on Thursday, April 17. Supper commences at 7 p.m. Films will be shown to the children. This is a family supper. Bring a pot luck dish.

WANTS ADS DO BIG WORK

Municipal District of Wainwright No. 61 TO WHOM IT MAY CONCERN

Your attention is directed to Bylaw 455 of the Municipal District of Wainwright No. 61, reference to travel on Municipal Roads. The Council seek your co-operation in this matter.

BYLAW No. 455

A Bylaw of the Municipal District of Wainwright, No. 61, to limit the operation of Trucks, Trailers and Tractors. Engines on all public roads, highways, streets and lanes in the Municipal District of Wainwright, No. 61.

WHEREAS:

Under the provisions of the Municipal Districts Act 1954, the control of all public roads, highways, streets and lanes within the said Municipal District is vested in the Municipal District of Wainwright No. 61 and there is a duty on the Municipal District to repair the said roads.

AND WHEREAS:

Under the provisions of the Public Service Vehicles Act the Council may prohibit the use of any district road, local road, or portion thereof by any truck, trailer, or tractor engine and the said Public Service Vehicles Act and the Highways Traffic Board do not provide for the control as contemplated in this Bylaw.

THEREFORE:

The Council of the Municipal District of Wainwright No. 61 enacts as follows: The term "truck" shall include all trucks with a rated capacity of one ton or more and the term "tractor" shall include traction engines operated on wheels and also such motor vehicles as run on tracks.

No person shall operate any truck, trailer, or tractor on any district road, local road or portion thereof without permission of the Councillor in the division in which the vehicle is operating during any rain storm or during a rainy season or at any time when the said vehicle breaks through the surface of the roadway or causes rutting or breaks chunks of road materials from the road bed.

Any person or persons who are found guilty of a breach of this Bylaw shall be guilty of an offence, and liable on summary conviction for a first offence to a penalty of not more than twenty-five (\$25.00) dollars and costs, for a second offence to a penalty of not more than Fifty (\$50.00) dollars and costs, for a third or subsequent offence to a penalty of not more than one hundred (\$100.00) dollars and costs.

CHAS. WILBRAHAM,
Secretary-Treasurer.

ALL WRAPPED UP

We suggest that the average American teacher or student is so wrapped up in the history and geography of his own country that he has little time to spend on the country of his neighbor.

—Peace River Block News, Dawson Creek.

NEED UNDERSTANDING

Boys and girls growing up have their own special trouble, and need some intelligent help and understanding. . . . They want to make a real job of their lives and by treating them like young men and women, we can help them do just that.

—Red Deer Advocate.

BASIC EDUCATION

Let us not turn our higher schools of learning into hothouses of technology and force-feed a crop of scientists just to pop glittering objects into space and plan more weapons and machines capable of destroying mankind. The little red schoolhouse with its three R's was much superior education to this.

—Greenfield, Sask., Sun.

WHAT'S THE USE?

Sometimes a person just wonders if it's worth the bother or not. This discouragement comes about when we see the useless destruction and vandalism carried out by some sections of our so-called civilized population.

—Melfort, Sask., Journal.

GRAND SPORT

There is scarcely another participating sport than that of curling that provides so much enjoyment for so many.

—Winkler, Man., Progress.

CURFEW LAW

We have never believed that police should be asked to take over the control of children which rightfully is the responsibility of parents, and the hours that children may stay out to play is, we think, something that parents should be able to control without any assistance from law officers.

—New Liskeard, Ont., Temiskaming Speaker.

CNR lets contract for new spur line

Contract for the initial work on the construction of an extension of Canadian National Railway spur line serving the Sheep Rock Iron Mines Ltd. near Atkinson, Ont., has been let to Hacquell's of Fort William.

The contract calls for the grubbing, grading, tunneling and installation of culverts, and construction of concrete retaining walls over the two-mile extension which will serve the mining company's Hogarth A-2 mine.

Man has never succeeded in making a textile fibre to equal the one found on the back of a sheep.

CAN YOU WIN HERE?

Before being taken by a group of "sharpies" supposed to be working this area it might be well to read this account of the venture published recently by the Calgary Albertan.

"Would you like to join a club that can get you the things you need at wholesale prices?"

This interesting bit of bait is currently being dangled in front of Alberta farmers and country folk by a company set up less than a year ago. Memberships cost up to \$100.

The Better Business Bureau said the company's head office is in Edmonton but it has a branch office in Calgary. Careful scrutiny of what is being offered is advised by the bureau.

Volume of inquiries coming into the bureau indicates the office business.

Warning that the magic word, discount, unfortunately is not always indicative of a genuine price cut, the Better Business Bureau suggested asking the discount merchant the following questions:

1. Is the merchandise of well-known manufacture?

2. Is it fully guaranteed in writing?

3. What service may I expect such as replacement of parts?

4. Does the quoted price include all charges such as shipping?

5. May I inspect the merchandise before acceptance?

6. May I expect a refund if goods are unsatisfactory?

The bureau pointed out other retailers are wondering how a retailer can do business at "wholesale" prices and stay in business.

—The Province, Innisfail, Alberta.

He plied first Katepwe steamboat

An ancient clipping unearthed by Gordon Glen shows a picture, too faded for reproduction, of Indian Head people on a Katepwe picnic in 1897 and 1898. Some of the individuals in the old photo have been identified by J. C. Hamilton, John Murray, Dr. Kemp, Billy Crawford, Mrs. Andrew Hamilton and Mrs. Billy Lang.

Of the individuals in the ancient print, William Crawford is shown with a buckaw. He kept the boat house at Katepwe in those early days and is noted as the first man to ply a steamboat on the Valley waters. Dr. Kemp, of noted memory here, is shown as a jaunty young man with a coal-black moustache. Miss Brooks, later Mrs. George Harvey, is also shown. The second picture shows the late John Brown, one of the original settlers of this country, and the late Rev. Thomas McAffee. Buggies and horses are shown in the background, plus washtubs and other paraphernalia for a meal outdoors, for in those days a picnic took quite a bit of preparation, and one didn't get to the picnic ground in only moments.—The News, Indian Head, Sask.

MOST MILES OF RAIL LINE

With 10,378 miles of railway track Ontario ranks 1st among the provinces. Saskatchewan ranks 2nd with 8,721 miles of track, but on a per capita basis Saskatchewan has the most miles of rail line of any province.

Wool, meat, hides make sheep profitable

Nature, not man, makes wool. Although man may have surpassed Nature in other things, he has never succeeded in making a textile fibre to equal the one found on the back of a sheep.

The story of wool dates back to man's earliest history. The sheep was one of the first animals to be domesticated and it has provided man with two of the basic necessities of life—food and clothing—all through the ages.

No one knows when wool was first spun and made into cloth, but garments made of wool fabric were worn by the Babylonians as early as 4000 B.C. and by 3000 B.C. all the Asiatic tribes were raising and breeding sheep.

When the Romans landed in Britain in 55 B.C. they found that the Britons possessed flocks of sheep and had developed a wool industry which grew rapidly under their encouragement. Later the Saxon invasions almost completely destroyed the industry and it was not until after the arrival of the Normans in 1066 that sheep breeding began to increase.

In more modern times, foreign farmers in England undertook improvement in the flocks that had been established in that part of an extending world. By an intelligent program of crossing their holdings of long-wooled breeds with types that produced

less desirable carcasses but more and finer wool, progress was shown by the middle of the 18th century. Various crossings of this kind, followed by rigid selection, resulted in several dual-purpose breeds being established in the few decades preceding 1800. Many of them proved to be acceptable as producers of both good wool and choice market lambs. In addition, the varying needs of a wide range of soils and topography were met.

Sheep were not known to the original Indian inhabitants of America. They were first brought to the New World by Coronado, the Spanish explorer in 1540.

A few sheep were also brought from overseas with the first colonists to Jamestown in 1609, and as early as 1671 a few sheep had reached Acadia (now Nova Scotia), and a few years later, New France—which is now Quebec.

It is said that the first arrivals on an organized basis began in 1705 and continued during the 18th century when people began to migrate from the British Isles to Canada in considerable numbers, many bringing small flocks with them. In any case, it is known that Eastern Canada's sheep population had risen to considerable proportions shortly after Confederation in 1867.

Within Canada's boundaries lie more than three million square miles of land, much of which is well adapted to the successful production of sheep—the one member of the animal kingdom that farmers and ranchers accept as being truly triple-purpose. Meat, wool and hide—each produces revenue for the farmer.

Across Canada's vast expanse, a great variety of climates, soils, surfaces and altitudes are encountered. Naturally, no one breed of sheep can be raised with best results in every part of the country, and during the past 200 years our flocks have been developed chiefly from ten main breeds which, in more recent times, have been recognized at leading fairs and exhibitions. They are:

Down breeds—Oxford, Hampshire, Suffolk, Shropshire, Southdown.

White face breeds—Lincoln, Cotswold, Leicester, Dorset, Cheviot.

Other breeds; Corriedale, Romney, Rambouillet.

HIGHEST MEAN ELEVATION

Antarctica has the highest mean elevation of the world's seven continents—9,000 feet.

The Canadian tobacco industry exceeded the \$5,000,000,000 mark in 1957.

Down breeds—Oxford, Hampshire, Suffolk, Shropshire, Southdown.

White face breeds—Lincoln, Cotswold, Leicester, Dorset, Cheviot.

Other breeds; Corriedale, Romney, Rambouillet.

Down breeds—Oxford, Hampshire, Suffolk, Shropshire, Southdown.

White face breeds—Lincoln, Cotswold, Leicester, Dorset, Cheviot.

Other breeds; Corriedale, Romney, Rambouillet.

Down breeds—Oxford, Hampshire, Suffolk, Shropshire, Southdown.

White face breeds—Lincoln, Cotswold, Leicester, Dorset, Cheviot.

Other breeds; Corriedale, Romney, Rambouillet.

Down breeds—Oxford, Hampshire, Suffolk, Shropshire, Southdown.

White face breeds—Lincoln, Cotswold, Leicester, Dorset, Cheviot.

Down breeds—Oxford, Hampshire, Suffolk, Shropshire, Southdown.

White face breeds—Lincoln, Cotswold, Leicester, Dorset, Cheviot.

Other breeds; Corriedale, Romney, Rambouillet.

Down breeds—Oxford, Hampshire, Suffolk, Shropshire, Southdown.

The voice

The man with the carrying voice and the account of his own doings, got on at Uplands. He is likely the same man who has been getting on at Taber and Truro, St. Hyacinthe and Indian Head for many a year. He rides on buses, trains and airplanes. Before that, he used to ride in Joey Houlden's stage coach between Whittby and Oshawa. Probably he bored folk in Roman chariots, which may explain why those Romans looked so grim.

A mild, deliberate fellow, he rides along in anything handy, content with whatever audience fortune may seat near him, although his voice carries impartially to all parts of the vehicle.

Unaware of his influence over the other passengers, the man gifted with the penetrating voice tells how he sold that carload of scrap iron in 1908, and what he wore on the occasion and how the weather was.

On trains, uneasy passengers steal away to the diner, where they eat for hours to avoid the voice; this is why travelling salesmen are usually plump.

The man with the carrying voice got on at Uplands. This time democracy has shown some spunk. The kangaroo court has acted promptly. There remains the job of getting the emergency door closed. Persisting above the sound of the plane engines, the voice floats up through the sky, steadily relating the details of that scrap-iron deal in 1908.—The Printed Word.

LONE TRAILS

(Published by Boy Scouts Assn. Regina)

NEW LONE SCOUTS

This month we are pleased to extend the sincere left handshake of welcome to the following new Lone Scouts:

Wayman Blair—Pahlow, Wayne Clarke—Estlin.

Our congratulations to Lone Scout Larry Nygren of Wadena, who has successfully passed the Tenderfoot tests, and has been invested by his Dad, who is his Counsellor.

We have a lot of Lones just about ready for Tenderfoot and hope to be hearing from them soon.

BE A COURTEOUS DRIVER

Snowball quilt

7065

by Alice Brooks

TWO-PATCH blocks! This quilt snowballs swiftly into an heirloom. Two fabrics must be used for effective design.

You'll enjoy this handwork! Pattern 7065; chart, directions, pattern of patches. Yardages for single, double-bed quilts.

Send thirty-five cents in coins for this pattern (stamps cannot be accepted). Print plainly your Name, Address, Pattern Number. Address order to:

Just watch these yummy BANANA CAKELETS disappear!

Note: Have all ingredients at room temperature.

Measure into bowl 8 Eggs, shortening. Sift together twice, then sifter shortening.

2 c. once-sifted pastry flour or 1 1/2 c. once-sifted all-purpose flour.

2 tps. Magic Baking Powder 1/2 tsp. baking soda 1/2 tsp. salt 1 1/4 c. granulated sugar

Sift in until blended 1 c. mashed ripe banana 1/2 c. milk then beat 300 strokes or 2 min. by hand or with electric mixer at medium speed. Add 1 tsp. vanilla 2 unseasoned eggs and beat 150 strokes or 1 min.

Two-thirds fill muffin pans, either greased or lined with cup cake papers. Bake in moderately hot oven, 375°, 20 to 25 min. Sprinkle hot cup cakes with a mixture of 2 tps. icing sugar and 1/4 tsp. ground cinnamon. Yield about 20 cup cakes.

Two-thirds fill muffin pans, either greased or lined with cup cake papers. Bake in moderately hot oven, 375°, 20 to 25 min. Sprinkle hot cup cakes with a mixture of 2 tps. icing sugar and 1/4 tsp. ground cinnamon. Yield about 20 cup cakes.

Two-thirds fill muffin pans, either greased or lined with cup cake papers. Bake in moderately hot oven, 375°, 20 to 25 min. Sprinkle hot cup cakes with a mixture of 2 tps. icing sugar and 1/4 tsp. ground cinnamon. Yield about 20 cup cakes.

Two-thirds fill muffin pans, either greased or lined with cup cake papers. Bake in moderately hot oven, 375°, 20 to 25 min. Sprinkle hot cup cakes with a mixture of 2 tps. icing sugar and 1/4 tsp. ground cinnamon. Yield about 20 cup cakes.

Two-thirds fill muffin pans, either greased or lined with cup cake papers. Bake in moderately hot oven, 375°, 20 to 25 min. Sprinkle hot cup cakes with a mixture of 2 tps. icing sugar and 1/4 tsp. ground cinnamon. Yield about 20 cup cakes.

Two-thirds fill muffin pans, either greased or lined with cup cake papers

Big brother

In the current arguments in various parts of Canada over whether governments should impose marketing regulations in farm produce, the following quotation from the *Encyclopaedia Britannica's* article on Spain is useful reading. There may even be a few people left around who believe in price control; the article will do them good too. Then there are those who still think that government is useful, can be a help; this passage of history should scare them:

"Encouragement of industry was not wanting; the state undertook to develop the herds of merino sheep, by issuing prohibitions against inclosures which proved the ruin of agriculture. . . Taxes, fixed prices, were placed on everything. The weaver, the fuller, the armourer, the potter, the shoemaker were told exactly how to do their own work. All this did not bear its full fruit (immediately), but the end of the 16th century it had reduced Spain to a state of Byzantine regulation in which every kind of work had to be done under the eye and subject to the interference of a vast swarm of government officials. . . By the 17th century it had made Spain one of the two 'most beggarly nations in Europe'—the other being Portugal."—The Printed Word.

Quick Canadian Quiz

1. Who was captain of a famed sailing ship called "The Mathew"?
2. To help guard the democratic freedom of Canadians the B.N.A. Act requires federal and provincial legislatures to meet at least how often?
3. In 1858 will the tax payments to all governments by Canadians be \$100, \$300, or \$500 per capita?
4. Work was started on Canada's first transcontinental railway in 1822. When was it completed?
5. From what source does the federal old age security fund derive its revenue?

ANSWERS: 5. From a two per cent slice of federal income, corporation and sales taxes. 3. About \$500 per capita. 1. John Cabot, an Italian sea captain in the service of England, sailed in the *Mathew* to discover Canada. 4. In 1886, although the CPR's building the line. 2. At least once a year. (Material prepared by the editors of *Quick Canadian Facts*, the pocket—annual of facts about Canada.)

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plates dropped, slipped or wobbled at just the wrong time. So not live in fear of this happening to you. Just purchase a little more *SEDICIN* (non-acid) powder, on your plates. Your false teeth more firmly. They feel more comfortable. Does not irritate gums. *SEDICIN* (non-acid) powder, on your plates. *SEDICIN* (non-acid) powder, on your plates. *SEDICIN* (non-acid) powder, on your plates.

YOU CAN SLEEP TO-NIGHT AND RELIEVE NERVOUSNESS SALLYDAY TO-MORROW!

SEDICIN tablets taken according to directions is a safe way to induce sleep or quiet the nerves with no side effects.
